1 HYDRAULIC REAR LOAD/UNLOAD TRAILER

Lloads 7 ton bundle direct from the ground and self-unloads at trans-shipping zone or mill yard. Hydraulically operated arm speeds up loading and simplifies maintenance.

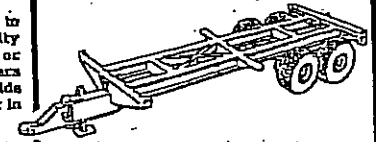

7 TANDEM BUNDLE TRAILERS

Low bed trailers for hand, grab or crane loading of chained bundles up to 8 tonnes each. Solid end boards with pockets for side stakes.

13 CONTAINER TRAILER

Container trailers are designed to carry 6 metre long 12 ton capacity containers for chopped or wholestick sugarcane. Containers are loaded by forklift or cross-aisle transfer table. Towed singly or in tandem.

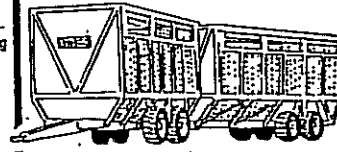

2 10 TON LOWBED

5 metre lowbed trailer with ramps for transporting plant and equipment. Optional outriggers for wide loads.

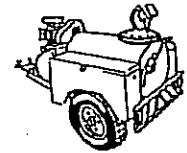

8 SPILLER BAR TRAILERS

7 and 12 ton tractor drawn, single or in tandem. Walking beam suspension on 12 ton units. Hilo spiller bar unloading. Loading by crane or in-field grab loader.

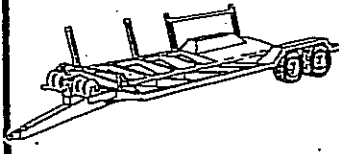

14 SERVICE TRAILER

Built to suit requirements. Can include fuel tank, gauge and hose, compressor, gas bottles and torches, welding set and tool box. Towed either by tractor or high speed pickup.

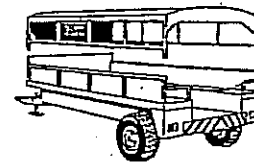

3 TWO BUNDLE SIDE LOADER

12 ton capacity cable winch side loader. Two cables per bundle. Double drum winch. Walking beam suspension.

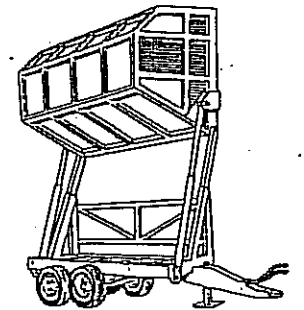

9 PERSONNEL CARRIERS

Capacity and seating arrangements to suit requirements. Optional canopy with open or glazed sides.

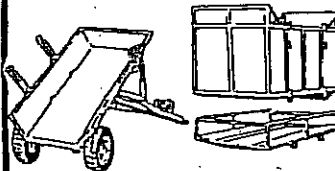

15 HIGH DUMP TRAILERS

High dump trailers tipping at heights up to 4 metres and with capacities from 5 tonnes to 7 tonnes each either singly or in tandem. Wheel equipment can be dual axle or single axle with large diameter wheels. Stabilizer leg fitted to all models.

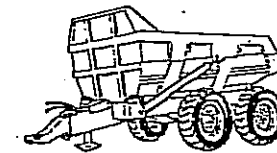

4 SELF SIDE LOAD REAR TIP

Cable winch side load and hydraulic rear tip loose cane or chained bundles. 6 ton capacity with general purpose body. Optional bulk bin and personnel rails.

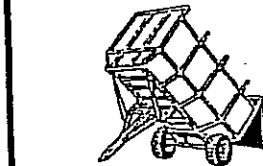

10 DUMPERS

Sizes range from 4.5 to 11 cubic metres. All models over 4.5 cubic metres have tandem walking beam suspension. Options include hydraulic or air brakes, tailgates and rock bodies.

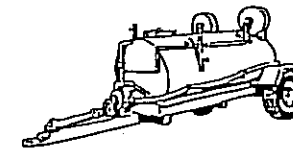

5 REAR TIP BULK BIN

7 ton capacity for mechanical in-field grab loading. Rear tip unloads loose cane or chained bundles.

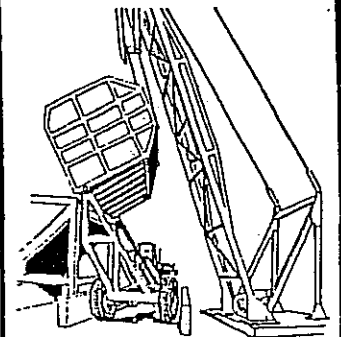

11 4 500 LITRE FIRE TANKER

Epoxy lined tank with tractor P.T.O. pump for pressure to guns or for re-filling. Two nozzles with guns and side spray boom for fire breaks.

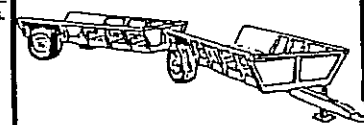

16 SPILLER SIDE DUMP

Spiller Side Dump trailers handle both chopped and wholestick sugarcane without any alteration to the sugar mill spiller system. Trailer sizes from 7 tonnes to 15 tonnes each either singly or in tandem. Spillage and vehicle cleaning are reduced to a minimum.

6 TANDEM BUNDLE TRAILERS

Low bed trailer for crane loading of chained bundles. 6 ton capacity each.

12 GENERAL PURPOSE TIPPERS

3, 5 and 7 ton hydraulically rear tipped with optional drop or fixed sides. Single axle braked or unbraked.
